An iPhone costs \$125 more than a Galaxy. The cost of the Galaxy is $\frac{3}{5}$ the cost of the iPhone. How much do the 2 phones cost together?

Angles

Anna bought 15 boxes of citrus fruits from a fundraiser. She paid \$12 for each box. If 6% sales tax was added to the total cost, how much was her total bill?

Polygons

Baby Isabel plays with blocks. Each block is 3.7 inches tall. She has a collection of 41 blocks. If she could stack all of the blocks up one on top of the other, how many inches tall would her tower of blocks be?
